

# Tasting classes

## *Love and knowledge of wine*

We cordially bid you to share with us our passion and knowledge of wine during one of our tasting classes in the exceptional setting of our 19th century château.

You may choose between two options:

### *Introduction to wine tasting*

You will learn how to **properly describe** a wine's color, identify its aromas and assess the structure and flavors of its taste. You will taste different wines produced from the major grape varieties of the Médoc and understand their typicity.

You will have a chance to step into **the role of a wine maker and craft your own master blend**.

### *Level up "A la carte"*

To deepen your knowledge of wines, **you may choose** one of the "à la carte" thematic courses according to your comfort and desires.

You may **select among subjects** such as: ageing, wine faults, wine service or viticulture ... *(contact us for more information)*.

**Come and spend a fun moment, listening to your senses.**
