

Secrets of the terroir

“The quality of the wine depends on the quality of the grapes”

Château Gruaud Larose invites you to unveil the secrets of its terroir.

Over the **paths of Napoleon**, you will trek through the **property's grounds discovering** its history and the work of Man in tune with his environment.

The feels, smells, and sights of this **vineyard walking tour** will bring you closer to nature giving you comprehension of the formation of the Medoc region and its **rich biodiversity**.

You will spend **your time mingling with the vines in the vineyards**, studying our soils and cultivation techniques such as composting, various steps of the growing process, prophylactic methods and much more. See sustainable **vineyard practices** in action from **beehives and natural hedges** to our weather monitoring stations and hail cannon which pierces the clouds with waves of sound.

While admiring gorgeous views of this rustic environment, you will also learn about **the region's influence** on water, marshlands, gravels and the general ecosystem.

The tour ends with the **discovery of our cellars**.

Finally in our wine shop you will taste our 2 wines and our honey.
